Guiding Gifted Learners

Why Bright Kids Get Poor Grades And What You Can Do About It (3rd Edition)

By Dr. Sylvia B. Rimm

Millions of gifted children are failing to reach their potential – something Dr. Sylvia Rimm calls underachievement syndrome. Drawing on both clinical research and years of experience counseling families, Dr. Rimm has developed a “Trifocal Model” to help parents and teachers work together to get students back on track. It is effective for a wide range of students, from preschool through college. Dr. Rimm’s practical, six-step program provides everything you need to know to turn a child or student’s underachievement into success.
