

Support Gifted Education!

SIG has offered summer programs for gifted and academically talented pre-college students since 1984.

Our programs challenge students intellectually and creatively while also engaging them in meaningful social and fun recreational experiences. The academic courses are multi-disciplinary and individualized to meet students' needs within small group classes. This framework provides them with the opportunity to engage with students of similar abilities and interests, who also hail from all over the US and approximately 40 other countries.

Now at 13 residential and commuter campuses and 15 additional day programs, SIG provides an ideal setting for a community of learners to think, create, and accomplish personal goals that can last a lifetime.

SIG is a program of the National Society for the Gifted and Talented, a 501(c)(3) organization.

Yes! I would like to support gifted education.
